Show Time As Busy

Thank you, Sarah and Mandy, for expressing an interest in the rulemaking process. During this meeting, I will provide an overview of the various statutes and Executive Orders that influence the procedures and timing of EPA rulemaking. I'll also talk a bit about the Action Development Process, although the Office of Policy are the true experts. We'll have time for plenty of discussion and questions.

Gautam and Sarah – I thought ARLO and OP might want to join me for this conversation. If so, please feel free to forward this invitation to whomever you wish.

Thank you guys.

I've CC'd Samantha Dravis on this. She's the associate administrator for policy and handling much of the RFS issues in her office. Soon joining your team is Mandy Gunasekara who will also work in a number of air issues.

Ryan – I'm reaching out on behalf of my boss, Congressman Garret Graves (LA-6). He would like to get on the phone with the appropriate person at EPA to discuss the attached letter we sent to Administrator Pruitt on March 7. Local refiners, oil marketers, convenience stores and gas stations are heading into the summer months facing a mandate to lower the Reid Vapor Pressure (RVP) of gasoline. For the past 2 years the industry has been required to implement the lower RVP by the state DEQ. It can however be waived, and has been done so in several areas around the country (info below). EPA can provide the flexibility for the state to eliminate the requirement, and that is our ask. As summer is fast approaching, timing is of the essence. I have cc'd our scheduler who can provide the Congressman's cellphone number and otherwise handle logistics of setting up a quick call. Thank you very much for your help on this.

Ian

BACKGROUND

- * Today, Reid Vapor Pressure (RVP) limits provide minimal benefit to ozone air quality because of improvements in vehicular emission equipment and the inability to blend ethanol lower than 8.8 RVP. These combined factors result in very few to no measurable benefits for ozone reduction.
- * Producing different RVP grades creates higher production costs for the refiner and these costs are passed on to the consumer (up to \$0.10/gallon).
- * Having different standards of RVP requires additional inspection and enforcement efforts.
- * RVP limits will not likely be considered an effective method to reduce ozone in the future, since the EPA recently strengthened the National Ambient Air Quality Standards (NAAQS) to 70ppb.
- * The 7.8 RVP requirement has been eliminated in other areas such as: Denver and Boulder, CO; Grant Parish, LA; Florida; Raleigh, Durham, and Chapel Hill, NC; Greensboro, NC; Winston and Salem, NC; High Point area in North Carolina; Jefferson and Shelby counties

(Birmingham area) in Alabama; and Mecklenburg and Gaston counties in North Carolina. The EPA is currently considering eliminating the RVP requirement in Pittsburgh, PA, a city very similar to Baton Rouge, LA.

Subject On behalf of Mike Flynn: Invitation to the Executive Management

Council Opening Session

Location Green Room

Show Time As Busy

The Executive Management Council (EMC), which is composed of the senior career regional and HQ managers, and chaired by the Deputy Administrator, is meeting next Tuesday and Wednesday (4/4 - 4/5). This Council focuses on Agency management and operations issues. The Acting Regional Administrators (RAs) will be attending in person

along with the Acting AA's.

You are invited to attend the Tuesday morning session, which will include remarks by the Administrator and also provide an opportunity for the new team to meet the Acting Regional Administrators and Acting Assistant Administrators (if you have not done so already). Plus, there will be breakfast treats!

Subject Meeting with National Alliance of Forest Owners

Location Alm Room

Show Time As Busy

Today's Date: April 3, 2017

Meeting Date: April 5, 2017

Meeting Time: 3:50 pm

Requested Location (if offsite, please list address, parking instructions, etc.): EPA, Administrator's Office

Requestor: The National Alliance of Forest Owners is an advocacy association of 48 companies and 29 forestry associations representing over 80 million acres of private forestland throughout the country. Nationwide, private forests constitute 70% of the nation's forests and support 2.4 million jobs and \$99 billion in annual payroll.

Purpose of the Meeting: To introduce the National Alliance of Forest Owners to the Administrator and discuss how forest owners and EPA can work together on water and air policies that will support jobs in the forestry sector and the rural economy overall.

Background on the Meeting: NAFO has two significant policy matters pending before EPA:

- 1. Regulation of Biomass Carbon Emissions
- * Forest biomass is a plentiful renewable energy resource that is typically the product of forest management or mill operations.
- * Producing energy from this low value product provides mills with an efficient power supply, supports jobs in rural communities and provides a better economic return for forest owners, many of whom continue to struggle to find markets for their wood following the Great Recession.
- * For many years, EPA policy treated biomass as carbon neutral, in line with the rest of the world, meaning that any carbon emitted from combustion of biomass is recaptured by growing forests as part of the natural carbon cycle.
- * In 2010, without public notice or scientific basis, EPA's "Tailoring Rule" reversed that policy and regulated greenhouse gas emissions from biomass without regard for the natural carbon cycle.
- * Since 2010 EPA has repeatedly committed to revise and clarify its biomass policy but failed to do so. The resulting uncertainty has stalled investment in biomass energy at mills and stand-alone facilities.

We are seeking to work with EPA to remove uncertainty about biomass in EPA policy through amendments to the Tailoring Rule that are pending at OMB. Clarity on biomass will correct EPA's policy on biomass, restore the natural forest carbon cycle as the underpinning for biomass energy policy, and support job-sustaining investment.

- 2. Waters of the US (WOTUS) Regulations
- * Forest management activities are generally consider nonpoint sources except for stormwater control ditches and herbicide applications.

- * Courts have required NPDES permits for herbicide applications in forests, but EPA has elected not to regulate ditches as point sources.
- * However, the expansion of WOTUS under the new definition will create confusion about where else the permits are required and what additional requirements are imposed if the ditches are now WOTUS.
- * Features that EPA declared to be WOTUS in the revised definition that are of concern to NAFO members include ephemeral and intermittent streams, ditches, and isolated wetlands.

Role of the Administrator: To provide insight on the issues listed above.

Attendees:

- 1. Michael Kelly President, Forest Investment Associates
- 2. Douglas Reed President, Green Diamond Resource Company
- 3. Dan Christensen Chairman, Hancock Natural Resource Group
- 4. Toby Luther President and CEO, Lone Rock Resources
- 5. Steve Hicks President and CEO, JM Longyear LLC
- 6. Jerry Barag President and CEO, CatchMark Timber
- 7. Wesley Langdale President, The Langdale Company
- 8. Rene Ancinas CEO, Port Blakely Tree Farms
- 9. Peter Sikora CEO, Giustina Resources
- 10. Chris Zinkan Chairman and CEO, The Forestland Group
- 11. Cam Crawford President and CEO, South Carolina Forestry Association
- 12. Tom Colgan President and CEO, Wagner Forest Management
- 13. Eva Greger Managing Director, GMO Renewable Resources
- 14. Earl Barrs President, Due South Investments
- 15. Wanda Barrs Owner, Gully Branch Tree Farm
- 16. Lee Wright, Managing Director, Jamestown
- 17. Dave Tenny CEO, NAFO
- 18. Chip Murray VP for Policy and General Counsel, NAFO
- 19. Mark Emmerson Chairman and CFO, Sierra Pacific Industries

Ryan, Larry Schafer here with Playmaker Strategies, we represent a handful of companies that produce over 300 million gallons of biodiesel. Our clients, Gene Gebolys from World Energy and Scott Lewis from Biox will be in Washington DC on Thursday, April 13 and Friday, April 14. Mr. Gebolys and Mr. Lewis run well-established biodiesel companies -combined these two companies have plants in five states and Canada (Texas, Mississippi, Georgia, Pennsylvania, Massachusetts and Ontario) We would like to bring them by for a short meeting to discuss the 2018 Renewable Fuels Standards (RFS) and specifically the Advanced Biofuels part of that program. Might you have a few minutes to meet on either of those days? Please let us know. Thank you. We can be reached by email at Lschafer@playmakerstrategies.com

Background:

By May 15, EPA must submit a plan to the Federal Court that describes how we will comply with the Judge's order to comply with Section 321 of the Clean Air Act. The court order requires EPA to complete a major study of the electric power and coal mining sectors by July 1. And by the end of the calendar year, we need to submit evidence that we are instituting an Economic Dislocation Early Warning System -- aimed at

identifying facilities threatened to close as a result of environmental regulation (covering the whole economy).

Landfill Air Rules Summary.docx

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Dear Ms. Dravis and Mr. Sugiyama:

At the suggestion of Al Collins of Occidental Petroleum (Oxy), who met with you last week and now sings your praises, I am writing to request a meeting with you at your earliest convenience to discuss a set of rules promulgated by EPA pursuant to Section 111 (b) and (d) of the Clean Air Act that impose revised performance standards for both new and existing municipal solid waste (MSW) landfills. The regulations were promulgated as part of President Obama's Climate Action Plan: Strategy to Reduce Methane Emissions.

Waste Management, along with Republic Services, the National Waste & Recycling Association and the Solid Waste Association of North America (associations representing both public and private organizations and professionals) identified a number of substantial issues of law and policy with the new rules, including overlap and conflict with existing rules governing the same landfill sources. We have asked EPA to stay, reconsider and revise the two climate-related rules. We petitioners have also challenged the new rules in the U.S. Court of Appeals for the D.C. Circuit.

The landfill rules share similarities with other regulations that EPA may reevaluate, including the Clean Power Plan and Oil & Gas Rules:

- * The new rule for existing landfills relies on the same Section 111(d) authority for which the Clean Power Plan has been criticized; and
- * The cost/benefit analyses underpinning the more stringent performance standards in the rules rely heavily on the "social cost of methane," which is derived from the "social cost of carbon."

Should the Agency decide to rethink those elements in other rules, we believe it would be advisable to reconsider the landfill rules as well. Although we petitioners are prepared to move forward with the judicial challenge, we believe a reconsideration of the rules could lead to a better outcome without the need for litigation. While rule revisions are our ultimate goal, an administrative stay of the rules under the Administrative Procedures Act is critical to avoid forcing the regulated community and the states to begin implementing these flawed rules. Many states are already engaged in developing their mandated state plans for implementation, which are due to the EPA

by May 30, so our request for a meeting is time-critical.

I am attaching a recent letter we petitioners sent to EPA prior to Administrator Pruitt's confirmation. It includes our somewhat lengthy administrative petitions. I would be happy to follow-up next week by phone to identify a convenient time on your doubtless busy schedules. Several participants will be coming from out of town, including a former colleague of Mr. Sugiyama, Mack McGuffey of Troutman Sanders, but we can be flexible in accommodating your schedules.

Thank you in advance, and I very much look forward to meeting you.

Dear Ms. Gunasekara:

We are writing to request a meeting with you and your colleagues to discuss a number of EPA regulations and permit requirements that we have identified as adversely affecting our member's manufacturing operations. On March 31, AF&PA filed comments in response to the Department of Commerce's Request for Information pursuant to the President's January 24 directive, and our comments discuss problems and proposed solutions related to 77 distinct rules and permit issues impeding U.S. manufacturing. Most of the comments focus on EPA issues.

AF&PA President and CEO Donna Harman has requested a meeting with Administrator Pruitt on behalf of several of our CEOs on May 4th, and we believe that meeting with you and other key EPA staff in advance of that meeting would enable the Administrator to be well-briefed and ensure the meeting is as productive as possible. As the issues we would like to discuss span a number of EPA offices, we have copied several of your colleagues on this message. We will facilitate your busy schedule, but the dates of April 18-21 look good for us.

Top priority issues we would like to discuss include:

- 1. Carbon Neutrality of Biomass
- 2. Air Permit Gridlock
- 3. Human Health Water Quality Criteria
- 4. EPA Procurement Guidelines for Paper and Paper Products Containing Recovered Materials/Specifications, Labels and Standards

AF&PA represents U.S. manufacturers of pulp, paper, packaging, tissue and wood products. Our industry employs 900,000 hard

working men and women, and our mills often are located in small, rural communities that need good-paying jobs. The U.S. forest products industry is very heavily regulated, but at the same time also must operate efficiently in a fiercely competitive global market.

We look forward to hearing from you soon and to discussing these important issues. Thank you for your consideration.

Best regards,

Paul Noe

Mandy - I'm not sure of your familiarity with the Navajo Generating Station (NGS) in AZ, but it's sole source for coal is a Peabody coal mine. Together they employ approx. 1,000 Native American Indians.

Given the President's campaign message, it is critically important that NGS not be closed, as reps for the Salt River Project have proposed. My client, Peabody, would like to come meet with you next week regarding a recent independent study that shows a viable, profitable path forward for NGS. Bureau of Reclamation owns 24% of NGS, FYI, and we've met with DoI officials incl Scott Cameron, and Sec. Zinke.

Please let me know if you have time to visit next week. Thanks very much for your consideration. Appreciated.

Thanks, Scott

Somehow, we managed to let our Acting Deputy Administrator's birthday pass by without recognition. To make up for it, please come down to the Deputy's office at 12:30 today to sing the birthday song for the sake of Mike's embarrassment, and let's all eat a cookie together.

AND Shhhhhhhl! Keep it quiet. He told me he didn't want me to do anything, but I know he was lying.

PS: Please forward if you see someone's name missing.

Hi Mandy-

We think the issue you raised below is an outgrowth of the OIG Management Alert issued February 6 of this year which found some concerns with Q/A of ozone monitoring data. We responded as part of standard practice to the OIG with a letter that noted that we found the issues raised in the Alert were not significant – ie, "based on our analysis so far, we believe that the vast majority of the most recent available ozone air monitoring data are not impacted by these findings and, thus, the ozone designation process should not be affected." Related to the Alert, we conducted further analysis of recent ozone air quality data and determined that data quality criteria were not met for 14% of the monitors in the national network for the period 2013-2015 – see attached Word document and PowerPoint slides. It looks to me that what you heard was a result of this follow-up analysis. I am copying Mike Koerber on this note (and Steve Page), and Mike can provide further context and walk you through this.

Thanks Sarah

Why don't we try and set it up as a call-in number? There is possibility I may be able to have Stephen Faehner join, who is head of the Executive Board of PFI and runs a pellet fuel facility. So he could address any specific questions you might have on pellet fuels, etc.

My conference line is:

Unauthorized dissemination, forwarding or copying of this e-mail is strictly prohibited.

Just reaching out to see if you would be available for a short conversation concerning pending litigation on the wood heater/pellet fuel rule. This litigation is currently being held in abeyance at the D.C. Circuit based on the agreement of EPA and petitioners and without the objection of intervenors.

I represent the Pellet Fuels Institute (PFI); PFI separately challenged

EPA's final standards for pellet fuel on the basis that they exceed the Agency's statutory authority under CAA section 111, are arbitrary and capricious and lack a sufficient administrative record. Since the current abeyance only extends until June, it would be helpful to discuss how we might be able to engage the Agency on this matter.

I am available by phone or in person to discuss this matter; whatever works on your end. I realize that your schedule is extremely busy, but believe that it will not take very long to lay out the very substantial issues that we believe are raised by the final rule.

Subject: Regulatory Reform and Other Items

Brittany,

I read that one of your assignments is the regulatory reform task force. Consequently, I wanted to reach out on some issues of concern. I've attached an email that I sent to Ryan Jackson that raises several issues that we would like to discuss. (Separately, we are trying to arrange a meeting for Barry Russell, IPAA's President and CEO with Administrator Pruitt through Sydney Hupp.)

Obviously, events are moving quickly. I know that the Administration filed an abeyance petition on the Subpart OOO0a litigation today. There is an issue there that is related that I'd like to call to your attention. The Subpart OOO0a fugitive emissions program — with its costly Leak Detection and Repair (LDAR) requirements — is scheduled to take effect on June 3. It would be helpful if this requirement, at least, could be stayed while the Subpart OOO0 and OOO0a requirements are being reconsidered since a different approach might be developed. I know there are other provisions that are already in effect that raise similar issues.

I also spoke with Dave Rostker from the SBA Advocacy office regarding LDAR in a small business context where the issues arises in both the Subpart OOOOa and VOC Control Techniques Guidelines context. He suggested reaching out to EPA as well.

Hopefully, we can discuss these issues soon given your schedule.

Thanks for your consideration,

Lee Fuller

Subject: IPAA Issues at EPA; Possible Meeting

Ryan,

I'm reaching out to you but would be happy if you point me to a preferred contact person.

After the recent Energy Executive Order, IPAA would like to discuss a number of pending issues with EPA.

Barry Russell, IPAA's President and CEO, would like to meet with Administrator Pruitt to introduce himself and IPAA. Barry worked for EPA in the 1970s before coming to IPAA.

The issues that we'd like to discuss relate to several matters.

First, EPA's actions in response to the Energy EO with regard to the methane NSPS (Subparts OOOO and OOOOa) are most important to IPAA. While currently engaged in the litigation opposing the regulations, the pathway to reconsideration and possible revision is critical. IPAA wants to be involved as soon as possible and wants to offer its cooperation.

Second, IPAA strongly supports efforts to expand and enhance delegation of regulatory authority to states. We are looking for options to be helpful in identifying pathways, working with our state cooperating associations to encourage state actions and working with Congress if there are barriers that need to be addressed.

Additionally, following are several other items – mostly directly affecting independent oil and natural gas producers – that we would like to identify as issues that we would hope EPA could address:

- 1. Control Techniques Guidelines (CTG) As a part of the Energy Executive Order, EPA is directed to reconsider the oil and natural gas methane New Source Performance Standard (NSPS) Subparts OOOO and OOOOa. When the Obama Administration proposed the NSPS, it also proposed a CTG for existing sources of Volatile Organic Compounds (VOC) in Ozone nonattainment areas. The CTG was finalized in October 2016. It should be suspended or withdrawn until the NSPS issues are resolved and determinations can be made on the appropriateness of the technology being applied to existing sources. Otherwise, the CTG will be applicable in future State Implementation Plans (SIP).
- 2. RCRA Subtitle D Consent Decree EPA agreed to a Consent Decree to settle litigation regarding mandatory duties under RCRA Subtitle D related to making determinations regarding the appropriateness of state oil and natural gas production wastes regulations. EPA has until March 2019 to respond but it should act quickly for two reasons. First, EPA's mandate to act does not require an extensive burden and the longer it takes to act, the more state programs appear to be viewed as inadequate. Second, the mandatory duties require action every three years. Action in 2017 would allow EPA to reconfirm its position in 2020 and establish a clear practice for the future.

Guidelines (ELG) – EPA finalized UOG Extraction ELG for discharges to Publicly Owned Treatment Works (POTW) in June 2016. These ELG should be based on a technology standard – Best Available Technology Economically Achievable (BATEA). EPA concluded that all discharges to POTW should be prohibited based on the availability of underground injection wells and of recycling options. Neither of these are BATEA. EPA should not be making zero discharge determinations based on its perception of other options. It should determine BATEA requirements. If the BATEA requirements are too expensive, it should be the dischargers' choice to use alternative approaches.

4. Clean Air Act Enforcement Tactics – Over the past several years, EPA's Enforcement tactics have been excessively aggressive. For example, in North Dakota where the state did not have delegation of the NSPS program for oil and natural gas production, EPA Enforcement initiated direct actions against producers with regard to its interpretation of Subpart OOOO requirements for storage vessels. This interpretation differed from those EPA technical staff had initially indicated. Using its enforcement power, EPA filed proposed penalties against a privately held producer that exceeded the value of its assets. The purpose was clear and predictable. EPA wanted to use its enforcement power to compel a limited asset company to enter into a consent agreement that would require actions that met Enforcement's interpretation of the regulation and to commit to additional actions that were beyond EPA Clean Air Act authority to require. Not only did EPA use a gap in state delegation to step over North Dakota in its zeal, but these types of enforcement tactics reflect poorly on EPA and the federal government and should be ended.

5. Ozone National Ambient Air Quality Standards (NAAQS) Revisions -The 2014 revision to the Ozone NAAQS should be reconsidered. Implementation of the 2008 revision to the Ozone NAAQS had yet to be implemented and evaluated when the 2014 revision was finalized. NAAQS attainment should be the target, not promulgating new, unachievable revisions. EPA's own data showed that the same areas it projected to fail to attain the 2008 NAAQS would fail to meet the 2014 revision. In those areas, the regulatory requirements would not change but the 2014 revision would bring new areas into nonattainment regulation. Even though EPA predicted those new areas would reach the 2014 NAAQS without additional local controls, those areas would be subject to new source permitting requirements that hamper their economic development. Where there is no compelling health benefit from a NAAQS revision - like the 2014 action – EPA should devote resources to attainment of the prior standard.

Thanks for considering this request. Please let me know how to proceed from here.

Topic: First, NSP has been working with EPA since 2013 to gain approval for a sorghum oil biodiesel pathway. The Agency has the legal authority to approve this pathway but continues to request information immaterial to approval. Second, sorghum farmers have witnessed significant pesticide-related restrictions and the threat of revocation of more than half of the crop's reliable insecticides. NSP recognizes the significant challenges the coming registration reviews of important chemistries will bring.

Location: Administrator's Office

Subject Energy Star and SNAP Discussion with Appliance Manufacturers

Location DCRoomARN3500/OPEI

Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Meeting proposal: ENERGY STAR is moving a specification on clothes washers, which we oppose. It is critical that I ensure you are aware of what is going on and hopefully stop this action until we can talk in more detail. While this is an urgent matter, it is also very important to discuss the ENERGY STAR program broadly. At a high level, we support its moving back to DOE for our products and have discussed this with the DOE beachhead team. We have CEOs and other senior executives from the entire industry meeting in DC for our Annual Meeting from April 29-May 2. It would be very helpful if we could discuss our issues with you before that. Any time from Tuesday, April 25, to Friday, April 28 would be ideal.

Discussion Topics:

SNAP Rule Allowing Isobutane (EPA-HQ-OAR-2009-0286) & Rule 21 (bans HFCs for refrigerators in 2021)

Microfibers (Trash-Free Waters)

Material Management/Landfill Diversion/Food Waste Disposers Safe Drink Water TSCA Reform Support Counterfeit Water Filters

Mandy:

Congrats, "I think", on your new mission in life. Met with Mary Neumayr couple days back and appreciate all of you who are now on the front lines are drinking from a fire hose right now. Hang in there as the road can only get smoother!

Been trying to connect with you by phone since you're landing at EPA and hoping this email finds its way to you. Am following-up on the potential of you appearing on ICAC's May 3rd Clean Air Summit program. Have included our original email trail below as a refresher. Certainly hope you can work this into your schedule as summit attendees are aware that you have been invited and excited about getting your perspective on things.

Holler if you have any questions, need an official letter on ICAC letterhead, etc. or I can assist you in any manner to make this as user friendly for you as possible up front.

Best regards and look forward to hearing from you.

I will open the call 5 minutes early.

I have attached three documents

- Letter from LDEQ Sec Chuck Carr Brown to ADM Pruitt on 10 Apr
 2017
- 2. Response with Region 6 edits
- 3. Response w/o Region 6 edits

- 4. A briefing paper prepared by OAR/Region 6/OECA for Samantha Dravis on April 18th. It lays out what we viewed as a positive path forward.
- 5. The Agency's long-standing policy on the use of "no action assurances."

Note from Sam Coleman

We last communicated on this on 4/24 at 12;02 PM. Since that time, the staff at R6 and HQ have worked very hard to come up with the two response letters attached (0)(5) DPP

have attached his concerns in the form of the two text messages below:

Two texts from Chuck Car Brown.

(1/2) I like version 2 best. Can the following sentence be added as the last line in the second to last paragraph?

While this course of action is being executed, the RVP requirement for all 16 parishes can remain at remain at 9.0.

(2/2) Thanks. Just need a little more clarity regarding what the refiners need to do immediately. We can always take what was written and take the lead as the State and direct the refiners but would opt for more clarity. Great hanging out today.

(b) (5) DPP

His cell no is (b) (6)

. Dr. Brown has held off the refiners making production changes up to now but has stated that he needs to give some direction very soon.

Hello OGC:

Anyone connecting to the OGC ALL Hands via Adobe Connect (link below) should not call into the 866 audio conference call in number to avoid sound feedback problems.

We would like to be able to see our remote and teleworking OGC staff on the screen via Adobe Connect, so please turn on your videocameras for this meeting.

http://epawebconferencing.acms.com/ogcallhands0504 2017/ http://epawebconferencing.acms.com/ogcallhands05042017/

OGC Colleagues: The Quarterly All Hands meeting will not be in room 1153 WJC East due to the unavailability of video-teleconference or data connections there due to the renovations of the room. However, we will stick to the May 4 date to give our invited guests time to prepare and certainty on all of our calendars.

We look forward to introducing our new Deputy General Counsels, as well as, other members of the Administrator's Office team. Also, remember if you have any questions you would like addressed by the OGC management team, but are uncomfortable raising them publicly, you should feel free to place them in the OGC suggestion box located in the 7th Floor large pantry. Thank you.

Regions: Please inform RTP on which room you will be using if connecting via video. Thank you.

Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear

Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: I would like very much to meet with you soon regarding a few ideas we have regarding air quality reform. I have a long (I am old) history on these issues from an oil and gas industry perspective, as well as State (CO) and Federal (EPA Hdqtrs and Region 8) roles. Noble is solution-oriented and would like to bring a few ideas to your attention. Any chance of meeting next Thursday or the following week? Depending on scheduling, I may bring our EVP of Environmental to the meeting.

Sending this out just so it shows up on folks' calendars. I'd advise getting there about 10 min early to clear security.

Once there's a call-in number, I'll add that, too.

Please let me know if you have any questions.—Ben

All,

We're having the briefing tomorrow at 4pm in the New Executive Office Building in 10258. Conference room 10258 is just outside the elevator bay on the 10th floor. There is a meeting scheduled in the conference room just prior to the 4pm meeting, but there is small reception area outside of the conference room where you can wait. Here is the link to the appointment where all attendees should submit their security clearance information. Please do so as soon as possible as we'll need to submit this tomorrow morning so attendees can be cleared into the building.

https://events.whitehouse.gov/form?rid=XQTCHM2KDK. We may have a call-in number as I imagine that some of the agencies who will be reviewing may not be able to send people over on such short notice. I'll send the call-in info in a later email.

I've attached letters from the Colorado Oil and Gas Association, the Colorado Association of Commerce and Industry and the Colorado Petroleum Association. I understand you may have also received similar letters from North Dakota industry associations. They address an issue that we've been talking about for quite a while, the need to reevaluate the previous Administration's campaign against oil and gas operators and return primary control to the States, as intended under the Clean Air Act. As we've discussed many times, we are simply advocating for a return to regular order and the type of "cooperative federalism" that the Administrator so ably champions at every opportunity.

Sharnett, we have an additional participant for the meeting on Monday (May 15) at 3:30 pm. Her is the full list:

- * Steve Berry, Volvo
- * Brian Mormino, Cummins
- * Paul Feenstra, PACCAR
- * Sean Waters, Daimler
- * Jed Mandel, EMA
- * Jason Quaranto, Navistar

Hello Sharnett. Hope you are doing well. We are preparing for our meeting with Ryan Jackson for Monday, May 15th at 3:30 pm. 3 questions:

- 1. We understand that Mandy Gunasekara will also join the meeting which is great. Will anyone else from EPA attend?
- 2. Can you provide details on where we will meet?
- 3. Do you need information from us on attendees or anything else?

Thanks for your help. See you soon!

Subject: Commercial Vehicle Manufacturers Mtg Request - April 19

Ryan, I hope you are doing well with your transition to the EPA. I will be visiting Washington, DC with several of my colleagues in the commercial vehicle industry and hope that you could meet with us on Wednesday, April 19th.

The participants in the meeting would be the President of the Truck and Engine Manufacturers Association (EMA) and executives from the major manufacturers – Cummins, Navistar, Paccar, Daimler and Volvo. Our intent is to discuss industry regulatory issues including the Phase 2 Fuel Efficiency and Greenhouse Gas regulations and the potential for a future low NOx rule.

We can be flexible on the timing for a meeting on April 19th. We are hoping that you would also invite other leaders in the Agency that could contribute to the discussion.

Please let me know what time would work and thanks for your

consideration,

Brian

Dear Mandy,

Your father, Mike, and I have been friends for some time now, and he suggested I contact you regarding a notice of an EPA violation and subsequent EPA and Structural Steel Services (SSS) correspondence.

I have attached the original Notice of Violation which we received on Aug 14, 2016 and the recent email from Erika White. There have been several documents exchanged. Structural Steel Services has been in business over 40 years in Meridian, MS. a family owned business employing nearly 300 people, fabricating steel for pollution control operations, natural gas facilities, and now we are fabricating beams for bridges to assist in building a better transportation system to improve the economic viability for our country. We have always complied with all rules and regulations. However, we have recently undergone a transition in personnel. Our Safety and Human Resource Director retired after 42 years. A majority of our employees have been with us many, many years. During that transition we failed to submit the required report that we have always submitted, on time, every time. We have always utilized the chemicals in question in the amounts indicated as required for this special reporting form. We have not altered our practices in any way. This was simply a clerical error, (late submission) and the report was subsequently submitted. However, as you can see we have been given a violation which allows us to either submit a SEP or pay the EPA fine. We had elected to submit a SEP, but have had no assistance from the EPA in guiding us in what would be acceptable. We continue to be told it must have nexus, but we are stymied in how nexus can be related to a clerical error. Our contacts at EPA have been Erika White, Atlanta office, Robert Bookman and Eddie Chou.

We have always been a community supporter, fabricating and building pavilions, handicapped bathrooms, and accessible buildings for the boy scout council. We have given our time, funds and expertise in matters that concern our community such as Special Olympics, State Games, college scholarships, financial support for school trips. The list goes on and on.

We would never, knowingly, violate an environmental policy. Our employees and their families come first. They live here and work here. We have always and will always be helpful partners with our families and our community.

Any assistance you can provide would be helpful and appreciated.

Dear Mandy,

Your father, Mike, and I have been friends for some time now, and he suggested I contact you regarding a notice of an EPA violation and subsequent EPA and Structural Steel Services (SSS) correspondence.

I have attached the original Notice of Violation which we received on Aug 14, 2016 and the recent email from Erika White. There have been several documents exchanged. Structural Steel Services has been in business over 40 years in Meridian, MS. a family owned business employing nearly 300 people, fabricating steel for pollution control operations, natural gas facilities, and now we are fabricating beams for bridges to assist in building a better transportation system to improve the economic viability for our country. We have always complied with all rules and regulations. However, we have recently undergone a transition in personnel. Our Safety and Human Resource Director retired after 42 years. A majority of our employees have been with us many, many years. During that transition we failed to submit the required report that we have always submitted, on time, every time. We have always utilized the chemicals in question in the amounts indicated as required for this special reporting form. We have not altered our practices in any way. This was simply a clerical error, (late submission) and the report was subsequently submitted. However, as you can see we have been given a violation which allows us to either submit a SEP or pay the EPA fine. We had elected to submit a SEP, but have had no assistance from the EPA in guiding us in what would be acceptable. We continue to be told it must have nexus, but we are stymied in how nexus can be related to a clerical error. Our contacts at EPA have been Erika White, Atlanta office, Robert Bookman and Eddie Chou.

We have always been a community supporter, fabricating and building pavilions, handicapped bathrooms, and accessible buildings for the boy scout council. We have given our time, funds and expertise in matters that concern our community such as Special Olympics, State Games, college scholarships, financial support for school trips. The list goes on and on.

We would never, knowingly, violate an environmental policy. Our employees and their families come first. They live here and work here. We have always and will always be helpful partners with our families and our community.

Ron Minsk

Hi Mandy,

I wanted to introduce myself and request a meeting with you to discuss the RFS point of obligation issue. I served as the energy and environment person at the White House National Economic Council under President Obama during much of the time when the RFS was being addressed. I fully appreciate the complexity of the issue and sympathize with the difficulty of the issue that you are working on now.

I have long thought that moving the point of obligation was a way to substantially strengthen the program. Doing so would promote the blending of ethanol and reduce the cost by aligning the obligation to blend and the ability to blend. EPA has seemed to acknowledge the theory but has been skeptical with respect to whether there is data to support the theory.

I addressed this issue directly in comments that I filed in the docket recently and have attached to this email. In short, I show that obligated companies that are long are far less likely to blend than obligated parties that are short, and that the best way to promote blending is to adjust the incentives by moving the point of obligation. You can see these point most clearly in Figures 6 and 7 of my comments on pages 26 and 27 of the PDF file.

Without knowing what you are inclined to do, I know that even if you

wanted to do this, you would want to be able to fully explain it. I also appreciate that there would be a lot of hard questions that stakeholders might raise. I know where you are because I have been there myself.

I would welcome the opportunity to walk you through my work and explain how I would answer the questions that I am sure you would want answers to if you want to make this change.

I am generally available to come in to meet with you. I can be reached at rminsk@earthlink.net <mailto:rminsk@earthlink.net> and by phone at

In preparation for the meeting with the International Monetary Fund (IMF) on June 1st, please see below the questions submitted by the IMF, with an indication of the appropriate EPA office for response.

Questions submitted by the IMF:

Economic and environmental regulations

* Please share your views on the effectiveness of various EPA programs on environmental safety. How to you see the trade-off with respect to economic costs. (Office of Policy)

Policy priorities, views, and plans

* What are the main areas for reform (developing and enforcing environmental regulations, grants, research & partnerships, education)? (Office of Policy)

Please discuss views and plans with respect to:

- federal coal leases and the Stream Protection Rule (Department of Interior issues)
- the Clean Power Plan (CPP) targets for emissions of carbon dioxide (Office of Air and Radiation)
- limits on methane emissions and curbs on venting and flaring (Office of Air and Radiation)
- fuel economy and emission standards for cars and trucks; are they too onerous for the automobile industry in the EPA's assessment (Office of Air and Radiation)
- renewable fuel standard for biofuels (Office of Air and Radiation)
- Paris COP21 agreement and plans to ratify the agreement and achieve emission goals. (Office of Air and Radiation)
- * What are your views on introducing a carbon tax and a border adjustment for carbon content of imported goods? (Office of Air and Radiation)

Budget

Attendees

* Please discuss the potential implication of proposed funding cuts envisaged in the President's budget on EPA's delivery of grants, regulatory enforcement and staffing. (Office of the Chief Financial Officer)

This meeting is being held at EPA's HQ, in the General Counsel's conference room. The address is 1200 Pennsylvania Avenue NW, Washington, D.C. 20460. We are located directly above the Federal Triangle metro station. If driving, please come to the middle of 12th Street NW/DC, between Constitution and Pennsylvania avenue. Then walk towards the alcove. Please come into the William Jefferson Clinton North entrance on the right. When you arrive, please check in at the security desk. They will call the main line (b) (6) for someone to come and escort you to the conference room.

Subject: Introduction

Hi Brittany,

It was great to meet you at the Chamber meeting yesterday morning. I really appreciated hearing your perspective on all of the opportunities you and your team have at the agency. As we discussed, I work at Cummins and lead our government relations efforts on energy and environment issues, including truck and engine regulation for fuel efficiency and NOx.

I also mentioned that my colleague, Brian Mormino, was in town for meetings with the White House and your colleagues Ryan and Mandy (cc'd) at EPA to discuss some of these issues. I know we wanted to follow up with Mandy and keep you all in the loop on our discussions with the WH (Mike Catanzarro) regarding potential regulation streamlining and next-tier NOx, and I wanted to see if you might have time for a 30 minute meeting or call with me and Brian to fill you in on discussions.

	meeting of can with the and brian to him you in on alsoussions.

Point of Obligation

Location 3500 WJCN

Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (b) (6) for all other matters call Robin Kime (b) (6)

Request: On behalf of our client, the Association of American Railroads (AAR https://www.aar.org/), I respectfully request an opportunity to meet with you to discuss the point of obligation under the Renewable Fuels Standard. AAR represents the major freight railroads, which are significant end-users of diesel fuel, and has a unique perspective to offer on this issue.

Attendees are flying in for this meeting.

Subject: Meeting with the Brick Industry Association

When: Thursday, June 15, 2017 1:30 PM-2:00 PM (UTC-05:00) Eastern

Time (US & Canada).

Where: DCRoomARN3500/OPEI

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (b) (6) for all other matters call Robin Kime (b) (6)

Request: I am writing on behalf of the Brick Industry Association (BIA) to request a meeting with Administrator Pruitt. BIA is a national trade association representing clay brick manufacturers, distributorships, and their suppliers. Two-thirds of all the brick shipped in North American is manufactured by BIA members. In addition, many BIA member companies are family-owned small businesses. Many of BIA's members are subject to a recently-promulgated National Emissions Standard for Hazardous Air Pollutants for Brick Manufacturing (i.e., the "Brick MACT"). BIA has a pending challenge to this rule in the DC Circuit. BIA does not want to discuss the litigation with the Administrator. BIA does hope to discuss with the Administrator the enormous impact that the rule is having on the industry and some of BIA's ideas as to how the rule could be improved and the burden lessened. A group of BIA members will be in Washington, DC, on Thursday, June 15. A meeting that date would be ideal. If that does not work for Administrator Pruitt, we would appreciate any suggested alternative dates.

Subject Regulatory Reform Meeting With 3M

Location 3500 WJC-N Show Time As Tentative

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear

Security.

EPA Contact: For an escort from Security to the meeting call (b) (6) for all other matters call Robin Kime (b) (6)

Attendees:

Tom Geier, Manager, 3M Government Affairs

Paul Narog, Manager, Environmental Operations

John F. Metzger, Sr. Environmental Specialist

Request: We would like to meet with you to discuss 3M's ideas for regulatory reform, which we provided to U. S. EPA in accordance with Executive Order 13777. A number of changes that we suggested should fit nicely the dual criteria of "timing" and "simplicity" that you spoke about during today's ACC meeting. We would especially like to discuss with you how a number of the New Source Performance Standards (at 40 C.F.R. Part 60) constrain research and development, which is the lifeblood of innovative companies such as 3M, and remedies that we believe EPA can readily put in place.

Pool Cover Industry Stakeholders

Mimi,

Thank you for the introduction.

Daris, good to meet you.

I represent a coalition of US domestic manufacturers in the swimming pool industry. Specifically, the custom manufacturer of swimming pool covers.

One of the larger firms is based in Westfield, Indiana.

This coalition has been engaged with the EPA for several years on a consumer awareness strategy regarding water conservation.

Wanted to approach your office on the idea of a public private partnership with the EPA and the cover manufacturers.

The group will be coming to D.C. On June 20-21.

I can get you more specific info under a separate cover.

Reason for the request is that the current, career staff at the EPA have had difficulty conceptualizing the idea of a P3 approach.

Wanted to see, given the Indiana angle, if your office could provide some support for the concept.

Let me know if I can provide further info and thank you in advance for your consideration.

Carl

Show Time As Busy

I would propose the following agenda:

- •Introduction of attendees
- •Brief description of CO1
- What and where
- •Delineation of the issue and the plight of CO1
- •Brainstorm Solutions with EPA
- Next steps

Attendees:

Robert G. Riley, Jr.

Joseph P. Riley

Joshua Andrews

AJ Moore

Devin Mogler

Ken Markowitz – not completely sure if he is attending or not yet

Overview of the issue:

- We need help from this administration to correct the wrong conclusions of the past administration
- In 2015 EPA has indicated that CO1 is a bio-intermediary
- We believe this is an erroneous conclusion we have legal and industry opinions supporting CO1 as well as scientific data backing us up
- EPA indicated for more than 2 years that a rule would be forthcoming to give bio intermediaries access to the market- no viable market access has materialized

- Other industries/feedstocks are operating in precisely the same manner as CO1 and are given access to the market
- We need help from the Trump administration to correct the wrong conclusions of the Obama administration

It will just be Bob and the only other addition may be Joseph Riley his son. Bob's full name is Robert G. Riley Jr.

I have asked about topics to be covered and I will get back to you.

Amy

Morning Amy,

It looks like Wednesday, June 21 at 2:00 will work best. Let me know if that works on your end and I will confirm. Will it be just Bob or will others be attending as well? If so, I will need all attendees full names to send to security. Additionally, if you could give a brief overview of the topics to be discussed and send over any materials that we should review beforehand that would be great. Any questions just let me know.

Best,

Alex Dominguez

Hi Amy - I was informed this was going to be a face to face as Bob would
be in DC the 21/22. If this is incorrect not a problem and we can do it
over the phone.

All- As discussed, here is an invite for the follow up to our meeting last week. We will identify a conference room on Tuesday. Note that we discussed the ability to expand the invite list to key members of the trial team; I leave it to DOJ and my folks in ARLO to forward the invite to

those key folks. Please let us know if we need a call in number added to the invite.

Thanks, Kevin

- * David Cetola, Johnson Matthey, Director of Government Affairs
- * Casey Westhoff, Umicore, Government Affairs

Discussion Topics:

- * Overview of the Alliance for Vehicle Efficiency (AVE)
- * The automobile supplier industry and where things are headed
- * EPA's Midterm evaluation of emission standards
- * AVE concerns about matters that will impact the supplier industry
- * How AVE and its members can assist EPA (What type of information the auto supplier community might be able to provide EPA to assist with the rulemaking?)

Thank you again for assisting with this meeting.

Request:

I'm GM's lead Republican managing our Federal team – I'm sorry that I don't think we've met in person yet. As you know, GM General Counsel and my boss GMNA VP for Public Policy met with the Administrator in April. I think that Mandy and Brittany were also in the meeting. We were hoping to schedule a meeting with the three of you and some of our technical folks from Detroit next week or the following regarding the fuel economy mid-term review and harmonization of EPA/NHTSA fuel economy standards.

Alex, Please see below if you have any questions do not hesitate to let us know. We did discuss this issue with Administrator Pruitt directly in a meeting with him and Justin Schwab the last week in April. Regards, Tim

Attendees:

Don Bloss, NSP Chairman

Tom Willis - Conestoga Energy CEO

Tim Lust, NSP CEO

John Duff, NSP Renewables Director

Joe Bischoff, Cornerstone Government Affairs

Bernadette Rappold, - Legal Counsel, Greenburg Traurig

Background:

In order to be used for compliance under RFS2, biofuels must have an approved pathway. Pathways are based on GHG modeling of the production process and the feedstock used. Sorghum oil biodiesel does not have an approved pathway and thus cannot be used in biodiesel production costing our growers and industry money and leading to ethanol plants stopping the purchase of sorghum. This is a significant problem as approximately 10 sorghum ethanol plants are now extracting oil but cannot sell their oil into the valuable biodiesel market.

We have submitted three documents to EPA staff totaling 325 pages. We have been working on this issue with EPA for over 3 years. The original petition was submitted in July 2016, and follow-up submissions answering staff questions were sent in January 2017 and April 2017. We also sent follow-up answers to Aaron Levy in early May and had sorghum ethanol plant staff do the same. He assured us the questions we answered would be the last in this process. Sorghum oil biodiesel can be approved by letter and extensive modeling has already taken place, so the process should be expedited.

Background on the Meeting: Short background: First, NSP has been working with EPA since 2013 to gain approval for a sorghum oil biodiesel pathway. The Agency has the legal authority to approve this pathway but continues to request information immaterial to approval.

Long Background: NSP has been working with EPA since 2013 to gain approval for a sorghum oil pathway. For several years EPA staff maintained NSP would not be required to submit a full petition. EPA then reversed course and asked for a full petition. NSP submitted a full petition in July of 2016 after having invested significant time and funding into research to gather the data EPA requested. We believe this petition

can be approved by letter without any formal rulemaking process. In fact, EPA has multiple legal precedents in the last two years.

Despite this precedent, EPA asked for additional information in October of 2016, and NSP submitted this information in January of 2017. EPA again asked for additional information in March of 2017, and NSP submitted this information in April of 2017. This most recent submission will have no bearing on EPA's approval of this petition as the information will have a negligible impact on greenhouse gas (GHG) emissions. Per the RFS2 final rule, a fuel is considered advanced if its GHG emissions achieve a 50 percent reduction from the established baseline. Sorghum oil biodiesel is almost identical to corn oil biodiesel, and corn oil biodiesel meets this GHG reduction threshold easily having been approved in March 2010.

Every month that drags by costs sorghum farmers and ethanol plants hundreds of thousands of dollars. This has nothing to do with the philosophical debate over the RFS. This has everything to do with EPA applying the rules of the RFS in a fair and timely manner that does not discriminate against sorghum farmers and its end users.

* Oil and Gas Public Hearing: On July 10, 2017, OAR will hold a public hearing on the Agency's proposed 3-month and 2-year stays for the Oil and Gas New Source Performance Standards and Emission Guidelines. The shorter proposed stays would fill any potential gap between the Administrative stay currently in place and the 2-year stay. The hearing will be held from 9:00 am - 4:00 pm in the EPA East Building. Over 100

speakers have already registered to speak.

Request:
Follow up on CERCLA/EPCRA litigation regarding CAFOs air emission court decision
(Waterkeeper Alliance, et al. v. EPA, No. 09-1017, April 11, 2017).
One highly pertinent and timely item of which Mandy should be aware is Tuesday's (July 3) DC Circuit's denial of the industry's petition for a rehearing of the court's earlier decision on the agency's EPCRA/CERCLA reporting exemption. The 1-page order is attached for reference.

Sent: Tuesday, July 11, 2017 5:30 PM To: Wilcox, Jahan < wilcox.jahan@epa.gov

Subject: media question

I sent this email yesterday to Julia and Enesta but forgot to include you. I am working on an article for next week's magazine on what EPA could be thinking in re-proposing the Clean Power Plan as part of its review of the regulation.

It's a widely held belief among stakeholders in DC that the agency will redo the CPP using just the original building block 1, heat-rate improvements at coal plants, as a means of compliance.

First, can you say anything about the heat-rate improvement idea being the course EPA will take? And second, can you outline where we are in the process of review to re-propose the rule, and when a new proposed CPP is due for release?

My deadline is Wednesday at Noon.

Request:

Ms. Greenwalt and Secretary Pruitt met with a group from the United Egg Producers and discussed the problems arising for the Egg industry out of EPCRA. At that meeting, the ongoing citizen suit against Hickman Egg Ranch was referenced as one example of the ongoing problem. The purpose of the meeting we are requesting is to go into further detail about that matter and to request the Agency's assistance in getting it resolved.

Show Time As Busy

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Alex,

We talked a bit with Justin and David about this meeting and they suggested we see if it would be possible to get some time for a pre-brief with Mandy.

The Biogenic CO2 Coalition is engaged on a number of issues (including some pending litigation for which they may be presenting a settlement proposal). If the plan is (b) (5)

Ryan,
That's great news, thank you. We're currently flexible after 3pm on Thursday or after 2.30pm on Friday. Would either suit you?
Ben on my team is coordinating the visit and can arrange with your office. My apologies for not getting back to you sooner.
Thanks,

On Jul 13, 2017, at 9:19 PM, "Alex.Doyle@fco.gov.uk <mailto:Alex.Doyle@fco.gov.uk> " <Alex.Doyle@fco.gov.uk</pre> <mailto:Alex.Doyle@fco.gov.uk> > wrote: Ryan, Mandy, We have Nick Bridge, the Foreign Sec's Special Representative https://www.gov.uk/government/people/nick-bridge, and Pete Betts, the UK's Director for International Energy and Climate, in the US next week (20th and 21st). Nick is a new appointment, previously the UK's ambassador to the OECD, and this is his first senior visit to the US. They have a helpful overview of the UK's position and would be excellent contacts for the EPA. I suspect a meeting with the Administrator may be a push at this notice. They've very keen to meet senior advisors in the EPA to develop an understanding of the Administrator's direction on environmental protection, energy and climate issues. I think you both met Archie Young, who works for Pete, in the margins of the G7 Environment Ministerial. I know Archie thought you would be good contacts for them to meet. It would be helpfully timed ahead of any potential visit from the Administrator to the UK. Please let me know if you are available on Thursday or Friday next week. Mandy, I know we can't meet until the week after, but any time you can make would be welcome. Subject Meeting with the Plastics Industry Association - Call in (b) (6)

Code: **(b) (6)**

Location 3500 WJCN

Show Time As Busy

Thank you for the introduction and welcome. The Plastics Industry Association (PLASTICS) and members of its EHS+ Committee are very much looking forward to meeting with members of EPA's Office of Policy team. This is particularly timely given last Thursday's release of the Unified Agenda.

Implementation of the amended TSCA remains a key issue, and a key theme is EPA resources. Below is a list of other important issues for our members (neither all-inclusive nor prioritized) that will also be discussed

with additional Agency offices. We'd like to focus on specific actions EPA could take that would be most helpful to our industry and that would not require changes to regulations, as well as discuss how we might address challenges that may require regulatory changes with notice and comment.

Chemical Substances

- Implementation of the amended TSCA
- TRI reporting

Air

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities
- Revisiting concepts of flexible air permitting, netting and debottlenecking, reporting frequency
- Leak detection and repair monitoring requirements for connectors
- "Once in, Always in" Policy for MACT standards
- Routine maintenance repair and replacement under NSR
- Commencing construction and beginning actual construction under NSR
- Project aggregation rulemaking (PSD and NSR)
- Air quality modeling analysis and monitoring requirements

Water

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities
- Pelletized and solid resins and wax under the SPCC component of EPA's oil spill prevention program

- Synthetic Organic Chemical Manufacturing Industry (SOCMI) wastewater proposal of 1994, amended in 2004 Waste - Petition for review of the Hazardous Waste Generators Improvements Rule, and potential options - CERCLA Superfund challenges to advancing rehabilitation POC: mgargas@plasticsindustry.org <mailto:mgargas@plasticsindustry.org> (b) (6) First Name Last Name Organization Title Scott DeFife Plastics Industry Association VP, Government Affairs Pam

I reached out to Mr. Schuette to give me your contact information because I wanted to keep Mr. Pruitt's office in the loop regarding op eds in the Washington Times. The Times will be running a section on energy. When they have asked me to submit an op-ed on the topic of ethanol, they mentioned that they would also be publishing an op-ed from Mr. Pruitt.

Attached is what I have submitted. I suspect that my views are in line with those of Mr. Pruitt, but I wanted to provide him an opportunity to comment on what I wrote. Any comments or suggestions that his office has would be welcome.

Mandy — I am writing to confirm a meeting with you and Utility Air Regulatory Group representatives for next Thursday, July 27, at 3:00 pm to discuss the Mercury and Air Toxics Standard. UARG will be represented by Makram Jaber (H&W), Andrew Knudsen (H&W), Mikes Gears (Duke Energy) and Justin Walters (Southern Co.). Makram and Andrew are counsel to the UARG HAPs Committee. Mike and Justin are co-chairs of the UARG HAPs Committee. I also may attend. The purpose of the meeting is not to talk about the pending litigation. We are interested in talking about the rule itself.

Please feel free to contact me if you have questions or need any additional information. Thanks.

Subject EPA/TTMA Meeting (re: Trailer GHG Rule)

Location 1200 Pennsylvania Avenue, NW (North) - Room 3530 WJCN

Show Time As Busy

Location: 1200 Pennsylvania Avenue, NW (North) - Room 3530 WJCN

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station.

EPA Contact: For an escort from Security to the meeting call (b) (b)

Request:

Follow up on Erik's inquiry asking us to reiterate TTMA's request for a meeting with EPA on its petitions to the Agency for reconsideration of the trailer GHG rule and an administrative stay under the APA or Clean Air Act.

Discuss EPA's path forward, as the industry faces a compliance date of January 1, 2018, which requires both immediate investments to achieve compliance and will cause customers to shift business away from large manufacturers who are subject to compliance obligations and toward small volume manufacturers who have exemptions. This is creating tremendous pressure on TTMA members to do something to address compliance obligations with a rule that they believe is both unlawful and contrary to the current Administration's policy.

Although TTMA is concerned about the government's request for a 30-day extension to the abeyance of the pending litigation because that will defer the process to obtain relief from its current situation, we are

amenable to (b) (5)

Subject: RE: OK DEQ

OK (no pun intended). I am attaching the briefing (with options) document intended for the meeting today. It may make sense, when you get a chance, for you to take a look at the document. You may not need a full briefing at that point, and David F volunteered to have a follow-up conversation with you (although if you look at the document and a briefing would be helpful, we can definitely set that up). OGC is interested in feedback on the options sooner rather than later as the State has been asking for a response from the Agency.

Show Time As Busy

The main purpose of the call is to make sure the Administrator's trip goes smoothly, so any advice/tips from Mandy and Sarah would be helpful. I can also answer questions they might have. And then more broadly I'd like to touch base to get a sense of the Administrator's priorities for the EPA, where it relates to international activities. I used to meet occasionally with Mandy in her old job so it's kind of a continuation of that discussion.

Also just so we don't cross any wires, I should let you know Mark Kasman has been very helpful in keeping the embassy here informed of the upcoming trip as he works with my colleagues in Australia as well as the US Embassy in Canberra.

> Approval of a pathway for sorghum oil is a urgent priority for sorghum farmers in our district, especially as we approach harvest this fall amid continued low grain prices.

Subject APA Roundtable: Judicial Review

Location 3500 WJCN

Show Time As Tentative

Samantha and Brittany have expressed an interest in learning more about the Administrative Procedure Act (APA) in the context of rulemaking. They and Justin Schwab decided to organize a very informal APA Discussion Group or Roundtable for this purpose. The first meeting will focus on Judicial Review and what courts look for in upholding or invalidating a rule or other agency action. At the end of this meeting, participants will identify the topic for the next Roundtable.

Attachments: I will send attachments to add to the invitation as we get

closer to the meeting date.

	Mandy requested that I set up some time on her calendar this week to
	discuss "Cliffs Settlement/U.S. Steel Mediation." The attendees will be Mandy, David Fotouhi, Erik Baptist, Lorie Schmidt, Gautam Srinivasan, Elliott Zenick, Ed Nam, John Mooney, Douglas Aburano, Steven Rosenthal, Levertt Nelson, Eric Cohen, William Wagner, and myself. We will need a conference line for the folks participating from Region 5. Let me know if you need any other information. Thanks!

Mandy said that she would like to have a meeting this week on the SNAP program. I think we'll need an hour. Invitees should be:

Erik Baptist (OGC)

Reid Harvey (OAR)

Cindy Newberg (OAR)

Diane McConkey (OGC)

Jan Tierney (OGC)

Lorie Schmidt (OGC)

Can you set this up for us?

Thanks

Corn Oil One. Will most likely include:

Robert G. Riley, Jr Corn Oil One

Joseph P. Riley Corn Oil One Joshua Andrews – FaegreBD – corporate lawyer Ken Markowitz – Akin Gump Hey Tate, I hope all of your trips in August have been going well! I wanted to loop back with you on Corn Oil 1 after our conversation in Iowa. Could you help schedule a phone call between Corn Oil 1 and Mandy for sometime next week? Devin and I would like to be on the call

as well. Corn Oil 1 is still not understanding why they are being placed in the biointermediary category. It'd be helpful from my end if Mandy (or whoever

is the correct person) could loop Devin and I in on the reasoning for

labeling them as such before the call.

Thank you SO much for all of your help on this!

Best,

Stephanie

Subject EPA-AAPCA Call on Exceptional Events

Location Call-In Number: (b) (6) Passcode: (b) (6)

Show Time As Busy

Updated 8/25: Attached and pasted below is a proposed agenda for the EPA-AAPCA call on the Exceptional Events Rule — Please note that the PDF attachment includes excerpts of air agency comments on the key issues identified in the agenda, a compilation of links and surveys for state perspectives on Exceptional Events as part of EO 13777 on Enforcing the Regulatory Reform Agenda, proposed revisions to the Exceptional Events Rule, 2015 revision to the Ozone NAAQS, as well as recent presentations and Congressional testimony from AAPCA members on Exceptional Events issues.

AAPCA Member Call with U.S. EPA on Exceptional Events

Wednesday, August 30 1:30 – 2:45 PM Eastern

Call-in information: (b) (6) Passcode: (b) (6)

Proposed Agenda:

- 1. Welcome / Roll Call
- 2. U.S. EPA / AAPCA Introduction
- 3. Key AAPCA Member Concerns
- * Resource/staff time required for air agencies to develop and submit approvable exceptional events demonstrations.
- * EPA should not limit the Exceptional Events Rule to certain regulatory actions/determinations.
- * Process for EPA's review of exceptional event demonstrations.
- * Time of review

- * Regional inconsistency
- * Tracking of submitted/approved/disapproved demonstrations
- * EPA improperly approaches definitions of: "Event"; "human activity unlikely to recur at a particular location"; and, "not reasonably controllable or preventable."
- * Uncertainty about absence of EPA guidance on certain aspects of the revised Exceptional Events Rule.
- * EPA needs to allow and commit to coordinating for regional events and other specific categories of exceptional events.
- * Potential requirements to consult Federal Land Managers.
- * EPA requires that Smoke Management Plans be certified/non-voluntary.
- 4. Other Questions and Comments

Enclosed material:

* Illustrative AAPCA member comments on: Resource/Staff Time Requirements (pgs. 2-4); Limits on Regulatory Actions/Determinations (4-5); EPA's Review Process (5-6); Inappropriate Definitions of Statute Language (6); Uncertainty Due to Absence of EPA Guidance (6-7); Regional Events and Categories of Exceptional Events (7); Federal Land Manager Consultation (7-8); Smoke Management Plans (8) * Appendix A: Links to recent air agency comments and testimony on Exceptional Events Rule – includes comments on EPA's regulatory reform (8-9), 2016 proposed revisions to the Exceptional Events Rule (9), 2015 proposed revision to the ozone NAAQS (9-10), and recent presentations and Congressional testimony (10-11)

* Appendix B: Text of Clean Air Act, Section 319 (11 – 13) Attendees Name (F-mail)

Subject: Montauk Request for Meeting: Cellulosic Fuel

Hello Mandy -- We are writing on behalf of Montauk Energy Holdings, LLC, which is responsible for more than one-fifth of all cellulosic RINs generated in 2016 and 2017. Montauk would like to meet with you to introduce you to the company and the cellulosic biogas industry. Given the current discussions regarding annual standards and a possible reset of the volumes, such a discussion would be timely and we believe useful to the agency as it moves forward on RFS issues. We have also requested a meeting with relevant staff (Paul Machiele and Dallas Burkholder), but we very much believe that we can add value to Administrator Pruitt's efforts on RFS through a meeting with you.

Please see the attached comments the Company submitted to EPA for more information about Montauk and cellulosic fuel.

Are there dates that would be best for you and your team? We will be as flexible as possible as Montauk is very eager to meet with EPA. Best regards – Susan

Subject: NMMA Meeting Request

Mandy and Alex you met with several members of the National Marine Manufacturers Association earlier this year — as you may recall Administrator Pruitt was under the weather but ended up joining us for some of the productive discussion. We covered several subjects

that day, spending some time on ethanol and E15 in particular. Wondering if some NMMA reps can come in to see you and/or any of your colleagues you think appropriate to expand on our recent thinking regarding E15 and a few other biofuel related matters. Looking at Wednesday or Thursday next week if possible.

Thank you very much!

Hi Mandy,

I hope this email finds you well. We met while I was working for the National Biodiesel Board to discuss the RFS.

I've left NBB and am now representing Pilot Flying J truck stops on renewable fuels issues.

Pilot Flying J is one of the largest distributors of renewable fuels and has a great interest in the RFS.

Pilot's head of renewable fuels, Michael Whitney, is going to be in DC next week, Oct 23 and 24th and would like to meet with you.

Do you have any availability on October 23 or 24?

Thanks in advance,

Anne

Hi Mandy and Alex,

I hope this finds you well. In the past, API mentioned the voluntary efforts our companies are engaged in to lower methane emissions. We are working to launch a more formal API Voluntary Program early next year and would like the chance to come in and discuss the program particulars. Right now, our members are reviewing the program requirements and must make a decision about sign on by the first week of November. Are you guys available during the second week of November to chat about the voluntary efforts by industry and how this program, in conjunction with EPA efforts on the NSPS reconsideration, can result in some marked reductions in methane emissions.

Let me know if you have some time the second week in November.

Thank you for your consideration.

Regards, Hilary

Subject: Request for Meeting - Auto Suppliers on Midterm Evaluation

of GHG Vehicle Emissions

Mandy:

I would like to request a meeting in the coming weeks to discuss EPA's reconsideration of the midterm evaluation of the vehicle greenhouse gas emission standards.

As vehicle suppliers we have a strong interest in the midterm evaluation and the vehicle emissions standards. Our position is also not identical to the vehicle manufactures on this issue.

It would be helpful if we could discuss our position and concerns with your office as this process is getting started.

Best,

Laurie

Location 3530 WJCN Show Time As Tentative

To: Dominguez, Alexander; Gunasekara, Mandy; Dravis, Samantha;

Bolen, Brittany; Baptist, Erik; Kime, Robin

Cc: Harlow, David

See below. This will be an in-person meeting with General Landry at EPA HQ.

Attendees:

Attorney General Landry, Special Assistant Dustin Danos, Deputy Chief Bill Stiles, Mark Bourgeois, Executive Vice President of LeBeouf Bros Towing, Caitlyn Stewart, Director of Regulatory Affairs with the American Waterway Operators, and Lori Kalani with Cozen O'Conner.

Good afternoon, Alex

My name is Dustin Danos, and I serve as special assistant to Louisiana Attorney General Jeff Landry. Earlier today, general Landry met with administrator Pruitt and discussed certain implications of the Tier IV NOX emissions standards that we believe merit further discussion. I believe that Tate has already spoken with Marcy about establishing a point of contact for this issue, but we were hoping to get a meeting on the books for sometime between November 16 and 19th, and Tate indicated that you would be the person to contact about scheduling a meeting with Marcy. I have CC'd Sarah Mulé, General Landry's scheduler, so the two of you can work on establishing a good time.

Thank you very much, I hope you have a good weekend.

> Subject: Dodge City, Kansas meeting request

>

> Alex,

>

> Eric Slee, Legislative Assistant in Senator Pat Roberts' Office, forwarded your contact information to me in regard to a conference call with the City of Dodge City, Kansas related to the renewable fuel standard program.

>

> The City has some interest in the proposed changes to the program at the federal level and a biogas project in their community.

>

> Eric indicated that you could help facilitate a call and I wondered if a possible call this week could be arranged? If so could you shoot me a few times this week that might work and I will check with the City of Dodge City. I think the initial call will be relatively short.

>

- > Ernestor De La Rosa, Assistant to the City Manager for the City of

I. PURPOSE

Discuss U.S. climate policy with Korea-based international government organization, the Global Green Growth Institute (GGGI), per their meeting request.

II. PARTICIPANTS

EPA

* Ms. Mandy Gunasekara, Senior Policy Advisor to the Administrator for the Office of Air and Radiation

Global Green Growth Institute

* Mr. Keeyong Chung, Director, Governance, Global Green Growth Institute

Mr. Chung is seconded to GGGI from the Republic of Korea (South

Korea) Ministry of Foreign Affairs. He previously served as Minister Counselor in Washington, DC. He will be in Washington from December 4-8 to get acquainted with climate policy under the current administration. Mr. Chung mentioned that his organization was encouraged by the publication of the Climate Science Special Report and is pursuing meetings with the State Department Office of Global Change, USAID, Congressional Research Service, Senate Foreign Relations Committee, House Foreign Affairs Committee, Johns Hopkins School of Advanced International Studies, Pew Charitable Trust, Wilson Center, Center for Strategic and International Studies, Environmental Defense Fund, and others during his visit to Washington.
